## BEERLINE CLEANER

### Chlorinated CIP Cleaner

Chlorinated, alkaline detergent for rapid breakdown of beer line soiling. It can be used for cleaning hard-to-remove soiling of food processing vessels and heavy duty cleaning of hard surfaces in general. This liquid detergent may also be used for automatic dish and glass washing machines, or as a general cleaner for floors, walls and benches. It is suitable for glass, stainless steel and plastic.

#### Directions

CIP cleaning: Ensure beer lines are clear from debris and product by rinsing through with warm or cold water. Circulate 1% Beer Line Cleaner and fresh water solution through lines for 10-20 minutes. Rinse to trade waste in accordance with local regulations. Thoroughly rinse lines again prior to re-filling with product. Automatic glass and dish washers: does undiluted product into wash water at a ratio of 1-2ml per litre.

#### MPI APPROVED C31 (All animal except dairy)

This may be used in all areas. Before use, all edible product and packaging material must be removed from the room. After using this compound, food surfaces must be thoroughly rinsed with potable water before production starts.

- **CHLORINATED FORMULATION**
- **LOW COST-IN-USE**
- **EFFECTIVE SANITISER**
- **FOR USE IN FOOD PROCESS AREAS**

#### PROPERTIES

APPEARANCE	Clear colourless liquid
SPECIFIC GRAVITY	1.19
pH	12.5
