

CHEMEX

HD CHLORSAN

Heavy Duty Cleaner & Sanitiser

This heavy duty cleaner & sanitiser takes care of stubborn soiling and disinfects in one action. The thickened formulation allows the product to cling to surfaces to ensure longer contact time. Effective against a wide range of bacteria and fungi and can be used for a wide range of janitorial applications.

Directions

Laundry Applications as a stain remover booster; use at ratio of 1:20 (5% soln, 50ml per litre). Do not use on delicates or colours. Kitchen and Bathrooms: use at ratio of 1:50 (2% soln, 20ml per litre). Wipe or mop, allow contact time of 5 minutes, rinse with clean fresh water. Outdoor Hard Surfaces: dilute at 1:5 - 1:1 (20% - 50% soln).

Good Practice

Under Good Practice Protocol (based on accepted international research) a 1% solution of this product diluted with potable water is recommended with liberal application on clean hard surfaces with a minimum contact time of 5 minutes. At this concentration the product provides 500PPM FAC. NZ Ministry of Health requirements for use in Early Education facilities use this product as follows:

2% solution = 1000PPM for daily surfaces.*

10% solution = 5000PPM for critical surfaces.*

* "Surfaces" as listed appropriate by NZ Ministry of Health (MOH); taps, toilet seats, door handles, change tables and janitorial floors.
