

CHEMEX

HYDROGEN PEROXIDE 60%

Concentrated Technical-Grade Laundry Bleach and Disinfectant

A powerful hydrogen peroxide laundry destainer & sanitiser effective on a wide range of soiling. Dispensed through Chemex's automatic laundry system. Hydrogen Peroxide 60% removes stains and whitens a wide range of fabrics and is often suitable for use where chlorine based bleaches are not appropriate. This product should only be used under the guidance of a Chemex trained representative. It is not suitable for domestic applications as it requires special handling and storage.

Directions

Dose undiluted solution into washing machine at a ratio of 1 - 4mls per kg of dry weight laundry. Avoid contact with skin and eyes and avoid breathing dust/vapour or spray mist. Wear overalls, impervious gloves and full face shield. Ensure adequate ventilation when using. If inhalation risk exists wear suitable mist respirator. Store locked up. Store in a cool, dry, well ventilated place and out of direct sunlight. Store away from acids, alkalis, reducing agents, heavy metals and their salts, combustible materials, dust, rust, hexavalent chromium compounds and foodstuffs. Keep containers closed when not in use.

MPI Approved Generic, 4.1.2 (All animal product except dairy)

This product may be used in areas where animal material or product is processed for human or animal consumption either as is, or as an appropriate solution. When used in human consumption areas, all human consumption product and packaging material must be removed from the room. Food contact surfaces which have been treated with this product must be thoroughly rinsed with potable water to remove all residues.
