## NEUTRAL CLEANER

### Active Bacterial Cleaning Agent

A concentrated formula to remove soiling and odours. This product is for difficult to clean surfaces such as non-sealed tiles, grout and lino. Soil activated, it is also excellent as a daily control treatment for urinals and toilet areas. A safe floor cleaner to use on concrete, vinyl and synthetic membrane flooring systems. It utilises a proprietary blend of environmentally friendly surfactants and an active, non-pathogenic bacterial agent, which provides fantastic results to surfaces engrained with heavy soiling. It can also be used for non-rinse applications.

#### Directions

Hard surface treatment for toilets, walls, bathrooms, floors; use a ratio of 1:100 to 1:50 (1-2% solution, 10-20ml per litre) to clean potable water. Use a sprayer to reach otherwise inaccessible areas. At recommended dilutions product does not require rinsing.

- **ACTIVE BACTERIA**
- **CONCENTRATED FORMULA**
- **RESIDUAL PATHOGEN CONTROL**
- **ODOUR CONTROL**

#### PROPERTIES

APPEARANCE	Clear green liquid
FRAGRANCE	Fruity odour
SPECIFIC GRAVITY	1.0
pH	7.5

#### REORDER

5L	FK-CHXNUTC05
