JANIBRITE

Toilet & Bathroom Cleaner/Disinfectant

Disinfecting cleaner, designed for toilet bowls, urinals and bathrooms. JaniBrite removes stains, uric encrustation from toilets and urinals, as well as scale and mineral deposits from showers and baths. It cleans, disinfects and deodorises all in one step, and its increased viscosity aids the cleaning process. This product is biodegradable and septic tank safe- when used as directed.

Directions

Flush toilet, then squirt a liberal amount around top of the bowl, beginning under the rim to allow the product to cover all surfaces and run down the bowl. Can be scrubbed immediately if needed, however for best results allow product to react for 4-5 minutes. Repeat if required. To use as a heavy duty Shower Cleaner, dilute at the ratio of 1:4 with water, spray on and wipe clean.

Good Practice

Under Good Practice Protocol (based on accepted international research), undiluted product is recommended with liberal application on clean hard surfaces with a minimum contact time of 10 minutes. Undiluted product provides 2400PPM QAC.

MPI Approved C32 (All animal products except dairy)

This may not be used in edible areas. The perfume must not be used to mask the odours of unsanitary conditions. This compound must be used in a manner that prevents the perfume invading any edible area.
