

CHEMEX

PREMSOFT

Laundry Fabric Softener and Sour

A concentrated fabric softener that leaves laundry feeling soft and fresh. Specially designed for automated laundry systems, it balances pH, reduces static cling and aids drying time by untangling the fibers.

Directions

Dose at a ratio of 2-4 mls per kg of dry laundry.* Apply to second to last wash cycle and follow with a final rinse. *Standard laundry load is approximately 4-5 kg dry-weight laundry.

MPI Approved C33 (All animal product except dairy)

This is a laundry compound. If treated fabric directly or indirectly comes in contact with edible product, a thorough rinse with potable water must follow the laundering process.
