

CHEMEX

PREMDET

Liquid Laundry Detergent

A specialised laundry detergent designed for automated laundry dispensing systems. The finely-tuned blend of surfactants makes it suitable for a wide range of textiles. Designed to use with builders for heavily soiled laundry, or by itself for light to medium soiling.

Directions

Dose undiluted solution into laundry machine at a ratio of 4-12 mls per kg dry weight laundry. For best results use in conjunction with Chemex PremBuild and Chemex PremSoft. Please consult your CHEMEX representative for specific wash programs.

MPI Approved C33 (All animal product except dairy)

This is a laundry compound. If treated fabric directly or indirectly comes in contact with edible product, a thorough rinse with potable water must follow the laundering process.
