DESTAINER

Multi Purpose Stain Remover

High strength 'chlorine-free' oxygenated bleach for a wide spectrum of applications. It is an excellent pre-soaker and stain remover for food service and laundries. Prior to machine wash, pre-soak coffee, tea and juice stains to lift from crockery, plastics, and cutlery prior and/or soak laundry fabrics to clean and sanitise. Not suitable for use on delicates such as: wool or silk.

Directions

As a crockery pre-soaker, depending on the level of staining: use 40-50 grams per 10 litres of hot potable water. Allow items to soak for a minimum of 10-15 minutes. Increase soaking time if required. As a laundry pre-soaker, depending on the level of soiling: use 30-50 grams in 10 litres of warm or hot water. Performance of the product can be significantly enhanced with the use of hot water (80°C), providing high temperatures are garment compatible.

Good Practice

Under Good Practice Protocol, diluted solution of this product as stated, provides general biostasis using internationally recognised antibacterial agents with a recommended minimum soak time of 15 minutes in hot water.

- **FOR DOMESTIC & COMMERCIAL USE**
- **SEPTIC TANK SAFE**
- **NON-CHLORINATED**
- **SANITISES & BRIGHTENS**
