

CHEMEX

3D-GREASE

Degreaser For Food Processing Industry

A multi purpose degreaser, designed for the toughest cleaning tasks in the food processing industry. It removes heavy soiling such as grease, oil and soap deposits. At recommended dilution rates it is safe to use on all surfaces, and can be used for cleaning benches, walls, floors and machinery.

Directions

Dilution rates depend on the level of soiling. For light to heavy soiling dilute with clean fresh water at the ratio 1:100 (10ml into 1L) to 1:10 (100ml into 1L). Apply by clean cloth, or mop. Rinse well with clean, fresh water. Dry with clean cloth or paper towel if required. When applying by spray, take extra care to remove all packaging and edible products from the area, and wear PPE.

MPI Approved C31 (All animal product except dairy)

This may be used in all areas. Before use, all edible product and packaging material must be removed from the room. After using this compound, food surfaces must be thoroughly rinsed with potable water before production starts.
