STERI VAP

Evaporating Sanitiser

Powerful multi-purpose, alcohol-based sanitiser, effective against a wide range of pathogens. Steri Vap can be used to disinfect a variety of surfaces including: hands and food contact areas. This fast drying, residue-free disinfectant is an excellent choice for moisture sensitive areas such as: conveyors, switch gear and electronic components.

DIRECTIONS

To sanitise non-food contact hard surfaces: apply undiluted to a clean dry cloth or paper towel, wipe evenly and leave to dry. Alternatively, spray sparingly onto a hard surface, then wipe with a clean cloth or paper towel. Ensure contact time of minimum one minute for sanitising to complete. When used as part of fish processing operations, contact surfaces must be well drained to minimise residues. To sanitise electrical housing, control switch gear and non food-contact hard surfaces, ensure all electrical and electronic components are disconnected from power supply. Apply as described above, ensuring contact time of minimum one minute. To sanitise hands: spray on clean, dry hands and allow to evaporate. Not suitable for large, open areas.

For Facilities Governed By the NZ Food Act 2014

To sanitise benches, chopping boards and other food-contact hard surfaces, apply as directed above. Surfaces must be well drained /dried to minimise residues. Ensure contact time of one minute minimum.

GOOD PRACTICE

Under Good Practice Protocol based on accepted international research an undiluted solution of this product is recommended with liberal application on clean hard surfaces with a minimum contact time of 1 minute. (70% W/W Ethanol)

MPI

This may be used as a no-rinse sanitiser on clean hard surfaces in licensed premises which are restricted only to the processing of fish. Before use, all edible product and packaging material must be removed from the room or carefully protected. After use, a rinse with potable water is not required but food contact surfaces must be thoroughly drained to minimise residues. When used as a sanitiser in other licensed premises, surfaces must be thoroughly rinsed with potable water before production starts. This product must always be used at the dilutions recommended by the manufacturer.

- **FAST-ACTING SANITISER**
- **EVAPORATES QUICKLY**
- **IDEAL FOR HARD SURFACES**
- **EFFECTIVE AGAINST COVID-19**

PROPERTIES

APPEARANCE	Clear Pink Liquid
ODOUR	No Fragrance
BACTERICIDE	70% EtOH w/v
