CHEMEX

CLEANER SANITISER

Detergent Sanitiser

A concentrated non-fragranced cleaner-sanitiser. Formulated to be equally effective in hard and soft water. Suitable for specialist food industry cleaning of all food processing areas and machinery. Safe on all surfaces. When diluted, can also be used as an anti-bacterial spray 'n' wipe cleaner. This high-strength product is septic tank safe when used as directed.

Directions

Dilute the product as directed depending on the level of soiling. For general cleaning and sanitising use at a ratio of 1:50 (2% solution, 20ml per litre) with cold potable water. Where heavier soiling is present, dilute 1:20 (5% solution, 50ml per litre) with potable cold or warm water. For sanitising use minimum 2% solution. Spray and wipe with clean cloth, or apply onto clean cloth and wipe surfaces. Rinse thoroughly with clean water. For sanitising clean surfaces allow minimum contact time of 10 minutes.

Good Practice

Under Good Practice Protocol a 2% diluted solution of this product as stated provides general biostasis using internationally recognised antibacterial agents with a recommended minimum contact time of 10 minutes. At 1% concentration this product provides 100PPM QAC.

MPI APPROVED C41 (All animal product except dairy)

This product may be used in all areas. Before use, all edible products and packaging material must be removed from the room or carefully protected. After use, surfaces must be thoroughly rinsed with potable water before production starts. This product must always be used at dilutions recommended by the manufacturer.
