CHEMEX

PREMBUILD

Liquid Laundry Builder

An alkaline builder for use alone in a "break'' wash, or in conjunction with a PremDet in a main wash. This concentrated formulation boosts detergent performance for optimal soil removal.

Directions

Dose undiluted solution into laundry machine at a ratio of 4-10 ml per kg dry weight laundry. Use in conjunction with PremDet. Please consult your CHEMEX representative for specific wash programs.

MPI Approved C33 (All animal product except dairy)

This is a laundry compound. If treated fabric directly or indirectly comes in contact with edible product, a thorough rinse with potable water must follow the laundering. process.

- **BOOSTS DETERGENT PERFORMANCE**
- **CONCENTRATED FORMULA**
- **ALKALINE pH**
- **ENHANCES HEAVY SOILING REMOVAL**
